 Lekki Phase one, Lagos 105102

CAREER OBJECTIVE

A self-driven frontend developer who builds and manages better code bases for reuse with an ability to collaborate with senior developers while spending extra time to be mentored. I like being in regular contact with team members to make sure tasks are efficiently handled and picking up the slack as required. I attended boot camps to learn new languages while honing my current skills since I am passionate about both personal development and software development.

EXPERIENCE

FRONTEND DEVELOPER, Victoria Island, Lagos

Polaris Bank Limited, May 2022–Present

- Designed user-friendly software to improve accessibility and responsiveness.
- Collaborated with teammates to improve processes and produce better tools.
- Reviewed proposed UI and UX designs for technical feasibility by collaborating with back-end development personnel.
- Checked web pages for compatibility with the browsers, devices and operating systems commonly used by customers.
- Improved coding of JavaScript and CSS to enhance user experience and functionality.
- Produced code in programming languages such as JavaScript and Typescript to create the most effective and clean websites.

FRONTEND DEVELOPER INTERN, New Haven, Enugu

Digital Dreams Limited, September 2021–May 2022

- Worked with a team of 8 software developers and provided end-to-end solutions for over 25 clients.
- Collaborated with teammates and updated application versions using Git.
- Used best practices in HTML and CSS to develop a static site based from a static image of a website design.
- Performed daily operations and maintenance tasks to ensure 40 web pages under Digital Dreams are up-to-date and free of errors.
- Developed cross-browser/platform HTML5, CSS and JavaScript to match design specs for complex page layouts while adhering to code standards.

EDUCATION

BACHELOR OF SCIENCE IN INDUSTRIAL PHYSICS, Enugu

Enugu State University of Science and Technology, August 2018

SKILLS

HTML

CSS

Bootstrap

Javascript

Typescript

React.js

Angular.js

PERSONAL PROJECTS

- Developing a school finder website that intends to help students find universities in any country or region using the React library with a team of other developers
- I built a blog post clone using the Angular framework.
- A crypto checker built using Angular to check the various cryptocurrency prices
