A hardworking, highly motivated professional, eager to lend combined knowledge and skills to enhance business performance. Operates well in both individual and team capacities, leveraging seasoned work ethic to quickly adapt to different processes and drive company objectives. Resourceful and results-driven with a passion for growth and efficiency to meet company needs and increase service value.

Skills

- Data Analysis(Visualization, Data Interpretation)
- Collaboration and Teamwork
- Problem Solving and Adaptability
- Technical Skills: HTML, CSS, JavaScript, Typescript, Angular, Microsoft Azure

Experience

MAY 2022 – CURRENT

Frontend Developer / Polaris Bank Limited, Nigeria

- Reviewed and validated proposed UI and UX designs, ensuring technical feasibility through close collaboration with back-end development personnel.
- Led the development of a new, highly-responsive, web-based user interface for a cutting-edge payment platform, resulting in a 20% increase in user engagement and a 15% improvement in transaction processing speed.
- Played a key role in maintaining and enhancing existing Angular systems, addressing 50+ bugs, and collaborating with JavaScript developers and software engineers to fortify the front-end architecture. Implemented APIs that facilitated a 30% increase in system scalability and flexibility.
- Developed 10+ bespoke components to meet the specific project requirements of the payment platform, adapting to the unique challenges posed by handling a large volume of transactions and diverse data sets.
- Proactively managed and updated project dependencies, resolving 20+ conflicts and ensuring the seamless integration of new features and improvements into the payment platform.
- Constructed data visualizations capable of effectively presenting vast amounts of transactional data, facilitating insights and decision-making for stakeholders. These visualizations led to a 25% improvement in data interpretation by end-users.
- Collaborated closely with the engineering team throughout the development lifecycle, resulting in a 30% reduction in time-to-market for new features and enhancements.

Education

AUGUST 2018

Industrial Physics / Enugu State University of Science and Technology, Nigeria

Bachelor of Science, Industrial Physics
